## SW 1404 Metrel Cloud Storage

Transfer, keep, manage and share your measurement data wherever you are. You can transfer the data directly from the instrument through Metrel Cloud App to Metrel Cloud Storage, and immediately access, share and collaborate on the data with other users. Alternatively, keep the data online until you have the time to manipulate it and create reports with Metrel ES Manager. Elevate your workflow and transform your measurement data management.

### KEY FEATURES

- Data is available from anywhere 24/7.
- Organise your files in folders, projects and shared files.
- A common online storage space for Metrel Cloud App and desktop applications (MESM, MMESM).
- Metrel Cloud Storage can be accessed via three different ways: Metrel Cloud App, MESM/MMESM, Web Browser.
- Metrel Cloud Storage supports different types of sharing files and projects between users:
  - Sharing Projects. Users can share Projects with other users with a registered Metrel Cloud Storage account and give them read/write privileges.
  - Sharing Links. Allow access to the selected content in Metrel Cloud Storage with view and download permissions for both users and external access.
  - Joining users: joined users have read/write access to all each other's Projects and can see each other's registered licences.
- Keep control of the work using the versioning system.
